

Instructions	Screenshot / Reference
Single sign-on if you are signed in to Peribirth or PeriCalm, and you launch the other application, you will be automatically logged in.	Logon
On October 14th , during the downtime, PeriCalm wil PeriBirth comes up after the downtime, it will take 3 of PeriBirth from PeriCalm.	I stay up and will gather vitals signs. Once the or 4 minutes for the vital signs to populate into
In the new version of PeriCalm 3.18 there is a Bi-dir and behind-the-scenes data streaming ensure that b patient's latest developments and progress to include etc.	ectional data flow between PeriBirth, PeriCalm oth applications are always up-to-date with the e many things such as vaginal exams, vital signs,
 Information Flow from PeriBirth to PeriCalm Epidural on the earliest value documented in the Anesthesia S shortcut button > Neuroaxial Procedure Report > Tin the earliest started time or done time documented in used instead: Epidural Anesthesia Spinal Anesthesia Continuous Epidural Infusion 	Date/Time is now calculated in PeriBirth based Start Time item (accessed from the Anesthesia nes). If no such entry is made in PeriBirth, then the Orders page for any of the following orders is
The system was updated to allow the Contraction Int between PeriBirth and PeriCALM. Note that the syste values between 0-450 only, other than that the data	ensity data > Montevideo units to stream em allows to document Contraction Intensity will not be visible in PeriCALM.

Annotation Tab Improvements

The *Maternal Assessment tab* now includes sections to document uterine activity and uterine tone. Notice there is a **reviewed box** that should be selected if you are observing a category I strip and this will satisfy your documentation requirements.

Add Annotation	/

Orders

The Epidural Start Time is displayed in the Audit Trail

appears (when hovering over the banner) to

notify the clinician of the mismatch.

Note: The Epidural Start Time ("Epidural") will be a factor in the percentile calculations only if entered manually to the "Epidural" field in PeriCALM curve.

Observed Time	Entry Time	Entered by	Observation Type	Action	Value
10/03/2013 16:00:10	10/03/2013 16:00:10	Interface PeriBirth (CALMLINK)	Epidural	Created	Oct 03, 2013 16:00

PeriCALM

The "Maternal Position" field was updated and will now show the same options in both the Maternal Assessment card in PeriCALM and Vital Signs spreadsheet in PeriBirth.

Rupture Date is now calculated in PeriBirth as the earliest time in which any of the following were documented:

- Membranes Status entered as SROM or AROM on the Pelvic Exam or SpecExam cards
- Term PROM set to Exist
- Preterm PROM set to Exist
- ROM set to ruleout/suspected/exist on the Admission > Chief Complaint card
- Rupture Date documented on PeriCALM

For more assistance, contact the Clinical Informatics Coordinators assigned to your facility. There is a Clinical Informatics Coordinator available on-call 24/7 through the Support Desk. The Support Desk number is **AZ** -602-747-4444 (choose option 3) and **WR** - 970-350-6669 or 1-800-424-8930.
